Description

Stone house to renovate in the center of Figueira da Foz.

This house is located in a very central area of the city of Figueira da Foz, where in addition to its magnificent beaches, you can find everything you need for your day-to-day life, such as Hospital, Casino, Supermarkets, great fish restaurants and seafood, etc. As well as quick and easy road and rail connections to all directions in the country.

This house is located in a small, very typical and traditional street, almost in the city center and very close to the railway station and the beaches, to which you can easily move on foot, as well as to any other area of the city.

The house consists of a ground floor and first floor, on the ground floor there were the kitchen and support areas for housing and on the first floor were the bedrooms and a living room very well illuminated by its large windows facing West, where the sun radiated its natural light. This room, moreover, presents a great potential for renovation, given its design and framing. But also the remaining spaces.

In general we can say that the house interiors will have to be completely renovated, given that they are somewhat degraded, but this could be a motivating factor for anyone who wants to develop a modern project, based on a building that already has some history.

The exterior walls of the house are still in good condition, considering the age of the house, the roof will have to be completely replaced.

At the rear there is a spacious patio ideal to be able to install a barbecue and leisure area, which adds an excellent value to the property and sets it apart from others similar on the same street / area.

This is an excellent opportunity for those looking for a traditional house, right in the center of a beautiful and charming coastal city, to renovate according to their dreams.
